

January 2009 Newsletter

Amazing Adventures

I realize we have skipped December's newsletter, but without hesitation I would like to report on all that happened during December and January. The headline would obviously be Benjie and his family's trip to Zambia.

They had a wonderful time, traveling through Botswana, experiencing magnificent landscapes and wonders and even daring to swim in a river with crocodiles nearby. They attended the local community church, fellowshipped with some of the locals and helped baptizing the people, explored the breathtaking Sioma Falls, went on game drives and on some days the men went on a fishing expedition... just to mention a few.

No one really wanted to return, and therefore they all are anticipating their migration to Zambia in April this year. Their stories makes all who hear it want to join them in moving to Zambia.

Family in Zambia:
*What a privilege to have a beautiful wife and children!
All serving the living God with a passion!*

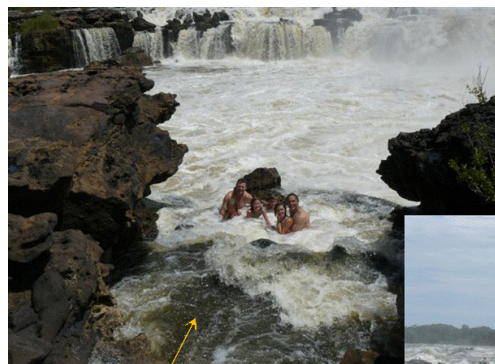

No arguments! When drifting down the Zambezi at sunset, everything inside of you are screaming! Life is good because God is good!

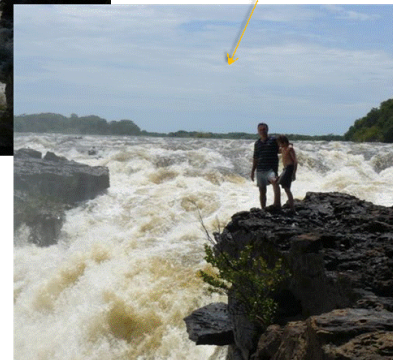

Gods creation is always a blessing!! Sunset in Chobe national Park Botswana

Can life be more fun?

Close to the creation! With Ben enjoying the Sioma falls in the beautiful remote Western Zambia

Although Celeste were not so excited, it was a tremendous blessing taking a bath in the Sioma falls in remote western Zambia!

Family trip to Zambia in December 2008

Benjie, Celeste and the children travelled to Zambia for four weeks during the December Holidays. They asked the Lord to show them specifically where they will be staying when they emigrate there in April this year. At the End of 2007 the Lord spoke to them about **moving to Zambia**, in the beginning 2008 He confirmed to them **in which area** and now **where specifically**.

The trip was wonderful... they had the privileged to visit several beautiful places and interact with some of the local community.

It was great to be ministering as a family and to see how the Lord is using the children and preparing them to live His BIG-plan .

They were housed by very dear friends of theirs, Gavan and Penny. Gavan played rugby for South Africa during the 1995 World Cup and is currently living out the Lord passionately in West Zambia. Their family impacts the local community in West Zambia greatly. Penny is a teacher and proposed to homeschool Benjie's children when they live in Zambia... what a blessing how the Lord lets everything just fall into place, when you walk by faith and not by sight.

Benjie and Celeste are very excited about the piece of land in Zambia where they will

The enormous privilege of assisting Gavin in baptizing his brother in Zambia

God's Word being fulfilled, though God's Work

At the end of February Benjie will go on a trip to the DRC again to follow up on the progress of Farming God's Way in Mbusi-Mayi, which already produced a wonderful harvest. He will be identifying people again for training, because they believe it will expand and therefore needs to

prepare.

This compares with the prophetic word that was released about the 'ripple effect'... that the community will impact the other communities and the rest of Africa.

We know that the word of the Lord will come to fulfillment: the

church is bursting out of its walls, with over 500 members that is passionate to carry out the Farming God's Way project.

Please pray that Benjie and his team will have favour among the people and especially for them for protection.
